## Visiting Fellowship Programme

---

### Call for Applications - Spring 2024

The Nordic Institutes of Advanced Study have formed the network [NordIAS](#) with the aim of increasing collaborations among the institutes and affiliated fellows and staff. The NordIAS visiting fellowship programme is intended to enhance the academic dialogue and network both for the fellows participating and for the institutes at large.

The NordIAS visiting fellowship programme is relevant for you if you see added academic value both for you as a fellow and for the receiving institute in doing a visiting fellowship for 1-3 weeks as part of your existing fellowship. Before you apply, you are encouraged to seek out potential collaborators and/or activities of relevance at the receiving institute.

#### **Eligibility**

All fellows at all the eight institutes are welcome to apply for a visiting fellowship at one of the other institutes. In order to apply, you must have an active fellowship at the home institute at the time of the desired visit.

#### **Period and duration of visit**

The visiting fellowship can be of 1 to 3 weeks. The timeframe for the visits must be between February 15, 2024 to June 30, 2024.

#### **Travel and accommodation**

The fellow's home institute will cover travel costs and accommodation for the duration of the visit. It is the visiting fellow's responsibility to find adequate housing and make arrangements with their home institute of the reimbursement/funding of the costs. Length of visit and type of accommodation must therefore, be cleared with your home institute.

## **The visiting fellowship includes**

The receiving institute will provide an office space for the duration of the visit and will include the visiting fellow in all relevant academic and social activities.

## **Deliverable and outcome**

It is expected from the visiting fellow to actively participate at the activities at the receiving institute, either by giving a seminar, presentation or other activity coordinated with the receiving institute.

After each visit, the visiting fellow must submit a short feedback regarding the outcome of the visit to both the receiving and the home institute.

## **Assessment of applications**

Applications are assessed in two steps.

- 1) Following the application deadline on January 10, the home institute decides which applicants they will support on an outgoing visiting fellowship. These applications are sent to the receiving institute.
- 2) The receiving institute(s) will decide which applicants they will receive on a visiting fellowship (this will largely depend on the academic match, timeframe and of available space at the receiving institute).

## **Application process**

- **November 2023:** Internal call announced by each institution
- **January 5, 2024:** Deadline for applications (submitted to home institution)
- **January 17, 2024:** Deadline for home institute to forward selected applicants to receiving institutes
- **February 1, 2024:** Deadline for receiving institutes to start dialogue with potential home institutes and incoming visiting fellows
- **February 15 – June 30, 2024:** Timeframe for visits

**Note:** If one fellow has applied to more than one institute, and is accepted at more than one institute, it is up to individual negotiation between the fellow and the home institute to decide if more than one visit can be granted.
