# Call for Applications

2025/2026

## AARHUS INSTITUTE OF ADVANCED STUDIES (AIAS)

---

### AIAS Visiting Fellowships (for researchers on sabbaticals)

Aarhus Institute of Advanced Studies at Aarhus University offers a number of visiting fellowships to outstanding researchers from abroad who are looking for an opportunity to engage in the international and interdisciplinary research community of AIAS and to collaborate with the research environments at Aarhus University (AU). Visiting fellows will have their daily office space at AIAS and will have the opportunity to participate in the activities at AIAS and the relevant research environments at AU. AIAS offers optimal office facilities and a thriving international and interdisciplinary community with joint social and academic activities.

#### AIAS - Interdisciplinary engagement and diversity

AIAS is an Institute that breaks down disciplinary and national boundaries and provides the framework and the setting for dialogue and discussions that challenge and expand the conventional ways of thinking and contribute to collaborative research. As AIAS has fellows from all over the world and from all academic disciplines, visiting fellows will therefore be an integral part of a much wider and global research community. AIAS strives to create not only an interdisciplinary, but also an inclusive academic environment and applications are welcome regardless of race, religion, nationality, sex, gender, and disability.

#### Requirements

Applicants must have a PhD and a minimum of two years of postdoctoral research experience at the time of the application deadline. AIAS Visiting Fellowships are for researchers from international institutions and the fellowship is without salary, and it is therefore expected that successful applicants will bring their salary with them from their home institution. Applicants should also have an active collaboration with Aarhus University and an established contact with a researcher or research community at Aarhus University. An open-minded approach and a curiosity to other academic disciplines than your own is a great advantage.

#### Fellowship duration

Applicants can apply for a visiting fellowship with a duration of a minimum of 2 months and up to 6 months within the calendar years 2025 and 2026.

#### Benefits of an AIAS Visiting Fellowship

- Office space and access to the lecture hall and meeting room facilities at AIAS
- Integration into an inspiring interdisciplinary and international research community
- Access to all social and academic activities at AIAS
- Administrative support for hosting academic events and conferences
- Travel costs (one return ticket) covered with up to a maximum of 2,000 euros; overseas ticket up to 3,000 euro
- Assistance with relocation practicalities.

## Application process

Application deadlines vary according to start date. Next deadlines:

- May 1, 2025: for visiting fellowships starting in the fall of 2025.
- November 1, 2025, for visiting fellowships starting in the spring of 2026.

After each application deadline, the AIAS Review Board for visiting fellowships (with a representative from each AU faculty) will assess the applications, and answers will be sent out within 30 days to all applicants.

## Application requirements and process

### The application must include:

- Letter of motivation (max 2 pages)
- Letter of support from an Aarhus University Contact
- CV of applicant (including selected list of publications, max 5 pages)
- PhD diploma
- Exact dates of preferred start and end dates of your fellowship

**Applications must be submitted online via the system GrantOne.**
