

NoRSC '19

Nordic Remote Sensing Conference 2019 17-19 September

DATA ACQUISITION, ALGORITHMS AND APPLICATIONS

Call for Sponsors

Nordic Remote Sensing Conference 2019 (NoRSC'19) will be held at the Aarhus Institute of Advanced Studies (AIAS), Aarhus University, Denmark, from 17-19 September 2019. NoRSC'19 will be a forum for networking primarily for the Nordic, and Arctic, Remote Sensing community, with experiences shared by keynote speakers and participants from other regions. We expect up to 75 participants to facilitate effective networking. Your sponsorship will enable us to support speakers and committee members, who contribute immensely to the scope and reach of the conference. Sponsors of NoRSC'19 are offered visibility on our website, at the venue, and/or in the conference booklet, depending on the category of sponsorship. The sponsors will also get the opportunity to introduce their products and services to, and interact with, researchers in both academia and industry during the conference and at exhibition booths.

Sponsorship Packages

We are offering three categories of sponsorships that can be tailored to suit your preferences, subject to the availability of items for sponsorship or co-sponsorship.

Package	Cost	Delegate Passes	Exhibition Booth	Social Event	Logo on website	Ad in Conference Booklet	Signage at venue
